

PortaCast® SBK

Systems Builders Kit

The PortaCast® SBK is designed specifically for Systems Integrators, Dealers and Customers who prefer to integrate their own components with Mobile Studios' Unique Patented Flip-Top-Flypack™.

It is configured with a custom cable harness, patch panel(s) and mounting hardware for the switcher and any other gear specified, shock-mounted monitor(s)*, and a rack-mount power distribution / conditioner.

* Legal issues require us to provide and install all monitors.

Standard Features

- * Heavy duty ATA airline grade materials for worry-free transport
- * 14 RU of available Rack Space
- * Unique FLIP TOP LID
- * Slide out drawer and mounting kit for switcher or control surface
- * Shock-mounted monitor(s) for all Inputs / Preview / Program
- * Integrated 3' x 2' folding table
- * Power distribution/conditioner
- * Customized patch panel(s)
- * Customized wiring harness
- * Compact 3 x 2 x 2 Ft when closed
- * Heavy duty 3 1/2" caster wheels and brakes
- * Optional 2nd folding table

Includes Complete Installation Kit

The PortaCast® SBK includes everything you need for system completion including custom wiring harness, patch panel(s), all mounting hardware and detailed instructions.

We only use premium quality materials, cables and connectors.
